DETAILED ACTION

Rejections and/or objections as previously applied

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1, 2, 3, 5, 7, 8, 9, 10, and 24 are rejected under 35 U.S.C. 103(a) as being unpatentable over the applicant's admitted prior art (AAPA) of this application in combination with Sugaya (US patent 6,844,268).

See the office action dated 05/23/05 for the contents of the rejection.

Response to Arguments

Applicant's arguments filed 05/23/05 have been fully considered but they are not persuasive. See below.

In response the applicant's arguments on pages 5, 6, 7, 8, and 9, it is submitted that if a recess is formed in the bottom electrode and a dielectric layer or the interlayer dielectric layer is formed in the recess as taught by Sugaya and the phase changeable layer is formed on the interlayer dielectric layer, the recess would inherently extends beyond a boundary between the bottom electrode and the interlayer dielectric and a portion of the phase changeable layer would inherently protrude into the bottom electrode beyond the boundary. Further, it is submitted that the motivation for combining the teaching of Sugaya into the structure of AAPA is recited in the pending rejection.

Allowable Subject Matter

Claims 4 and 6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
